

River Deep is a newly established collaboration of like-minded organizations working exclusively to serve individuals with disabilities, many of whom served or are serving in the military. Their common goal is to acclimate, enable and engage their clients as a way to assist in the healing process, improving outlook and quality of life.

SCI HOP is a program within this collaboration that organizes group outings for clients across all the organizations to help toward this goal.

Location: Lincoln Hills, Blackhawk, CO.

Hosted By: River Deep and SCI HOP

Participants: Craig Hospital, Operation TBI, Ft. Carson WTB

Anglers of Honor at Lincoln Hills

A day of fly fishing instruction, fly fishing, and lunch on the deck overlooking the water. Instruction comes first, casting, gear and knots. The guides and volunteers all pitch in to help with the instruction. We suit up, get our gear and pair up with the guides. We will be fishing the river and the ponds. The water is low and clear and the trout plentiful. You can see the smiles and hear the screams of excitement in everyone's voices every time a trout is on the line, and there are some big ones being landed.

More importantly, we are here for a day of peace and healing, a day outdoors in the mountains. It's almost lunchtime and we have a special treat prepared by the Escoffier Culinary Academy. We gathered on the deck to eat, tell stories and meet new friends. It's been a great day and a big thanks to all guides, staff and volunteers.
